

## Memorandum

### On establishment of “Armenian Climate Technology Academic Network” (ArmCTAN)

On the base of nationally determined fundamental documents of the Republic of Armenia under UN Framework Convention on Climate Change, particularly:

- Intended Nationally Determined Contributions document,
- Third national report of RA on climate change

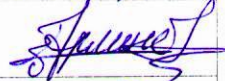

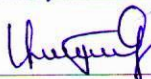

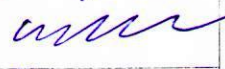

at the same time, guided by “Technology Needs Assessment for Climate Change Mitigation”, “Determining Priorities of Adaptation Technologies” and “The Establishment of Armenian Climate Technology Development and Transfer Center and Network (ArmCTCN) reports in the framework of “Technology Needs Assessment and Climate Change Technological Activities Program” where the ideas of establishment of Armenian Climate Technology Development and Transfer Center and Network, as well as the opinions of experts and stakeholders of different spheres are developed and substantiated, the parties are establishing “Armenian Climate Technology Academic Network” (ArmCTAN) by the given memorandum.

*The main purpose of establishment of ArmCTAN* is to promote the cooperation in development, application and transfer of climate technologies: meanwhile, ensuring a communication between the cooperating parties and “Climate Technology Center and Network” (CTCN)

#### *The activity of “ArmCTAN”*

1. “ArmCTAN” will act under the overall guidance of interagency coordinating council on implementation of provisions of UN “Framework Convention on Climate Changes”, established under the 995-N decision of Prime-Minister of RA (October 2<sup>nd</sup>, 2012).
2. “ArmCTAN” is a voluntary and free of charge created structure that is open to all interested organizations and individuals.
3. The Secretariat of “ArmCTAN” will be located at the Faculty of Geography and Geology of YSU and will act free of charge.
